Bernard Fensterwald, Jr.
905 — 16th St., N.W.
Washington, D.C.

Dear Sir:

My typewriter is on the blink but having read an article by Tom Tiede that appeared in our Frederick Post I wish to say, "Let no one discourage you — never give up." I phoned to obtain your address. You are correct in saying there are worse things than Watergate. It is one dirty bubble in a pool of slime. For over 8 years I have written against Johnson's reign of terror followed by Nixon's corrupt gang. I have suffered burning, looting and confiscation of property in D.C. I once ran for Congress on the Am. Party ticket so I could expose their wrong doing over T.V. and radio. Publishers have been threatened they would lose gov't contracts if some unfavorable articles appeared so about the only way to enlighten the public is through letters to the editor, today.

I am from the Daniel Carroll family, original owners of about 1/3 of Washington donated along with the White House to George Washington. My people worked on the Constitution and Declaration of Independence.

With my own ears I overheard two men

planning to murder Jack Kennedy. They had someone on the White House staff apparently giving information as to when he would be in Texas. The assassination was not the work of one kook. I think the Kennedy family know and perhaps that is why Johnson retired rather than be exposed as "going along" with what took place.

Incidently I overheard a memo of his about ruining homes in South Vietnam. It is my belief the wholesale destruction of 14 th St. in D.C. was similar. Men were paid $15 a day to ruin places it took decent people a lifetime to buy. I have written about Rebecca Lapiano's experiences. Any of my letters in the Frederick post for the last 8 years may be helpful to your crusade.

Eisenhower, Johnson and Nixon were put in office by the Octopus, I believe. As the tentacles are wrapped around more people it will be increasingly difficult for any of us to wiggle free.

My phone has been tapped off and on, mail tampered with, experienced the same freak auto accident that finished off Dessa L. who did a better job of fighting HB 1090 than I, refused a plum offered by the big party before votes were in so you may add my name to your list of so called "nuts." I can't donate money but you can tell you know who, I'm not a wet brain.

Yours for good luck,
Audrey Carroll
